

## **InventHelp Inventor Develops Vehicle Cover for Hail Protection**

*InventHelp, a leading inventor service company, is working to submit Hail-Of- A-Car-Cover to companies for their review.*

PITTSBURGH ([PRWEB](#)) December 15, 2017 -- "Not everyone has a garage in which to park their vehicles during inclement weather," said an inventor from Westminster, Colo. "I thought that there had to be a way to keep vehicles protected while they are parked outdoors and hailstorms come through the area."

He developed the patent-pending HAIL-OF-A-CAR-COVER to protect the equipped vehicle from falling hailstones. The cover prevents the vehicle from being dented and scratched. This reduces the need for repairs following a hailstorm. The device is adaptable for use with any make and model of vehicle. It offers added peace of mind. Furthermore, the cover is ideal for use by motorists without personal garages.

The original design was submitted to the Denver office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-DPH-205, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
