

Main Street Radiology and Adopt A Highway Maintenance Corporation® Are Keeping New York's Highways Litter-Free

Main Street Radiology is giving back to their community by sponsoring three signs in the New York Adopt A Highway® Program.

FLUSHING, N.Y. ([PRWEB](#)) January 05, 2019 -- To fulfill their civic duty, Main Street Radiology has teamed up with the New York Adopt A Highway® Program. Becoming a sponsor shows Main Street Radiology's care for the well-being of their patients as well as the safety of those traveling in Flushing, New York.

Understanding the importance of keeping highways both beautiful and safe is by far the most highlighted aspect of this sponsorship program. With a vast array of organizations that Main Street Radiology could have partnered with, it is outstanding that the team supports the Adopt A Highway® Program.

Adopt A Highway Maintenance Corporation® is proud to partner with a company that values the safety of their community. As said by the Assistant Director, Todd DiLeonardo, "Main Street Radiology has committed to the Adopt a Highway® Program to keep our roads clean and decrease the ongoing pollution for the community we've had the pleasure of serving since 1966. The partnership is an excellent way to give back to the borough of Queens while optimizing name recognition in return."

Main Street Radiology is staffed with 32 radiologists who have trained at schools such as Harvard, Yale, and Cornell University. In their continued effort to provide the best service to their patients, each office is supplied with state-of-the-art equipment that is sure to make even the most nervous patients feel at ease.
