

Hofstra University and Adopt A Highway Maintenance Corporation® Are Keeping New York's Highways Litter-Free

Hofstra University is demonstrating to their students the value of giving back to their community by sponsoring two signs in the New York Sponsor A Highway® Program. Each sponsor sign promotes litter-removal efforts along New York highways.

HEMPSTEAD, N.Y. ([PRWEB](#)) January 05, 2019 -- Being a highway sponsor allows businesses the opportunity to give back to their community by providing safe and clean highways that all drivers can appreciate. As a college that cares, Hofstra University is ensuring that students can drive on a road that is safe and free of litter and obstructions.

While the safety benefits provided to the community through the New York Sponsor A Highway® Program must be highlighted, the positive environmental impact is one worth celebrating as well. Promoting better sustainability practices, such as the recycling and litter-removal efforts put forth by the sponsors in the Sponsor A Highway® Program, serves as an encouragement to other businesses in the New York area to find ways to give back to their community and environment as well.

Hofstra University is a private institution that hires a staff of well-respected professors with glowing resumes to teach each course. The primary goal of the faculty at Hofstra University is to encourage their students to achieve academic excellence in both the undergraduate and graduate programs offered.
