

R2 Logistics, Inc. Announces 2019 Carrier of the Year Awards

R2 Logistics announces the 2019 Carrier of the Year Awards which recognizes transportation service providers for consistent superior freight management for R2 Logistics and its customers.

JACKSONVILLE, Fla. ([PRWEB](#)) January 28, 2020 -- R2 Logistics, Inc., a Third-Party Logistics service provider, today announced the recipients of their 2019 Carrier of the Year Awards. The Carrier of the Year Awards recognize transportation service providers for consistent superior freight management for R2 Logistics and its customers.

Awards were based on the following modes of transportation: Dry Van, Refrigerated and LTL. Carriers were then chosen around the following criteria of business partnership: Service, Volume, and Collaboration.

Congratulations to the following 2019 Carriers of the Year!

Dry Van: Lincoln Trans (Antelope, CA)

“Working with Lincoln Trans has been nothing short of a blessing,” said Riley Callicutt, R2 Logistics Los Angeles Branch Manager. “The partnership we have created between Lincoln and R2 has started to extend beyond the Los Angeles office and they have provided top notch service, reliability, and great communication across our entire network.”

“We originally began working with Lincoln for a high volume drop trailer program in the Pacific Northwest. Their flexibility and willingness to assist with capacity outside their normal lanes has helped us foster a growing relationship with one of our top customers. It’s been a pleasure working alongside their team and with people that have the same mindset; it’s about the partnership and playing the long game together. “

Refrigerated: Deerfield Farm Services (Elmer, NJ)

“Deerfield Farm Services exemplifies the best traits that a brokerage could ask for in their carrier network: reliable, efficient, and understanding,” said Jacob Marsh, R2 Logistics Denver Branch Manager. “They have run almost all of our bulk carrot loads for one of our toughest lanes. The delivery appointment has never made their rate change, and their ability to scrounge up trucks, even last minute, has been nothing short of outstanding.”

“The entire Deerfield team is extremely easy to work with. We’ve never had a single issue with them falling off a load at the last minute. Their service and relationship with the shipper has even helped us garner more volume from our customer. This is a top-notch carrier in our network, I only wish we had more of them available.”

LTL: Southeastern Freight Lines (Lexington, SC)

“Southeastern Freight Lines has provided our customer base with consistent reliable service in 2019 and in years past,” said John Hansen, R2 Logistics Director of LTL Operations. “They were instrumental in seamlessly transitioning one of our incumbent Truckload clients to also utilizing R2 Logistics’ LTL service. By combining excellent pricing and execution we were able to completely satisfy our customer while requiring minimal intervention on our side.”

“Southeastern’s Charleston, South Carolina terminal was essential in this process by providing great customer service and working hand in hand with the shipper to ensure on time pickup and delivery of all shipments. Furthermore, we found these aspects of Southeastern to hold true with all of our LTL clients in 2019.”

About R2 Logistics

R2 Logistics is a third-party logistics (3PL) provider offering industry-leading supply chain management services to shippers of all sizes. In 2019, R2 Logistics was named an Inbound Logistics Top 10 3PL and one of Transport Topics Top 50 Freight Brokerages. With the R2 Logistics Transportation Management System (TMS), customers can rate shipments and receive real-time visibility into their logistics network. Leveraging its nationwide branch network, R2 Logistics specializes in services that include managed transportation, full truckload, less-than-truckload (LTL), expedited and air freight, intermodal, ocean and specialized hauling.
