

## **SemaConnect, Inc. Installs Electric Vehicle Charging Stations in the City of Keene, New Hampshire to Support the City's Sustainability Program**

*The SemaConnect EV charging stations will support the city's sustainability program, "Green Up Keene" by providing an electric vehicle infrastructure to the growing number of electric vehicle drivers in the downtown area of Keene*

Washington, D.C. ([PRWEB](#)) November 19, 2015 -- SemaConnect electric vehicle (EV) stations have been installed in the City of Keene, New Hampshire at the Commercial Street Parking Lot in Keene's downtown location. The EV charging stations will highlight the city's focus on sustainability through their "Green Up Keene" program. [Green Up Keene](#) is a city-wide program developed to raise awareness for the city's efforts to become more sustainable. The program focuses on gathering community volunteers, city residents and commercial businesses to collaborate and create new ways in which the city can implement green-focused programs and initiatives.

"The City of Keene recognizes the growing impact of electric vehicles on the environment," said Don MacNeil, National Sales Director at SemaConnect. "The decision to offer electric vehicle charging in a prime downtown location will not only highlight the city's sustainability efforts, but will also meet the growing need for places to charge while on the road. The addition of our stations will create a new EV hotspot for local drivers."

The charging stations will be managed by the City of Keene, Parking Services, who received a grant from the state of New Hampshire Department of Environmental Services for installation. The stations will be open to all members of the public, and there will be at \$1.49 per hour usage fee. Keene is a city with environmental dedication, focusing on sustainable measures, which include the Climate Protection Committee, the yearly "Green Up Keene" environmental events, the Green Business Awards, the Greenhouse Gas Inventory, and now electric vehicle (EV) Charging Stations by SemaConnect.
