**Virtual Public Meeting
NM 22 & SP 88 Interchange Project in Santo Domingo
June 25, 2020**

Santo Domingo — The New Mexico Department of Transportation would like to announce proposed improvements to the NM 22 and SP 88 interchange in Santo Domingo Pueblo. NM 22 serves several communities and recreation areas along its route between I-25 and Cochiti Dam. These include Santo Domingo Pueblo, Sile, Pena Blanca, Cochiti Pueblo and Cochiti Lake.

The study area is located where New Mexico 22 crosses over SP 88 and where the loop ramp connects NM 22 to SP 88, between the New Mexico Rail Runner Express tracks, also known as the Mateo Overpass, and the bridge over Galisteo Creek. The study focuses on two major areas of concern: the SP 88 underpass below NM 22 and the NM 22 intersection with the loop ramp that connects to SP 88.

A virtual public meeting will be held to summarize the findings of the engineering and environmental analyses and present the recommended alternatives. The meeting will involve a short presentation with time available for the community to share concerns, ask questions, and discuss the proposed improvements. Please see below for more details on how to PARTICIPATE and to access PROJECT RESOURCES available.

How to Participate in the Virtual Public Meeting
Thursday, June 25th, 2020 at 6:30 p.m.

There are two ways to join the meeting:

1. Click here to participate online – access.live/nmdot
2. Or call: 1-877-229-8493 and enter ID code 119649

We value your input and would like to hear from you. Please either participate in the meeting question/comment session, download/mail the comment form, or send an email. Please SUBMIT your message or any comments about the project by July 17, 2020 to NM22@parametrix.com (Attn: Jim Buckman)
