

## **Ackerman for Life Now Available on New Toyota Vehicles at Ackerman Toyota**

*Dealership offers a non-factory warranty on new Toyota vehicles.*

ST. LOUIS ([PRWEB](#)) March 11, 2020 -- Ackerman for Life is a non-factory limited lifetime warranty on a vehicle's engine. The only way for customers to get this limited lifetime warranty is by purchasing a new Toyota vehicle from Ackerman Toyota. This limited lifetime warranty allows the primary vehicle owner to receive one lube, oil and filter replacement per calendar year. This is only available at Ackerman Toyota and it cannot be transferred to any other person or vehicle.

Ackerman for Life kicks in after ToyotaCare expires. All new Toyota vehicles come with ToyotaCare which is a no-cost maintenance plan that lasts for two years or 25,000 miles; whichever comes first. Items that are covered under ToyotaCare include routine maintenance such as a tire rotation, oil change and multipoint inspection. In addition, there is also twenty-four hours a day and seven days a week roadside assistance available to individuals that run out of gas as well as lock themselves out of their vehicles.

Ackerman Toyota works hard to maintain the trust of its customers. One of the ways the dealership does this is by having the purchasing process down to a science. When a customer arrives at Ackerman Toyota, he or she will drive off in a new vehicle in two hours or less.

Individuals that are interested in learning more about Ackerman for Life available only at Ackerman Toyota can visit the dealership's website at <https://www.ackermantoyota.com/>. Interested parties that have more questions about the limited lifetime warranty can call the dealership at 314-351-3000. Finally, for those that would like a more personal experience and the opportunity to also browse the dealership's current inventory, Ackerman Toyota is conveniently located at 2020 Hampton Avenue in St. Louis.
