

Pendry Residences West Hollywood Collaborates with McLaren North America on Super Garage Amenity

The luxury residential offering pairs a 1,719 square-foot custom garage with McLaren's exclusive 765LT supercar.

LOS ANGELES ([PRWEB](#)) November 16, 2020 -- [Pendry Residences West Hollywood by Montage Hotels & Resorts](#), a luxury residential development located on the Sunset Strip, and [McLaren Automotive North America](#), the creator of high-performance supercars, today announced a collaboration on Pendry Residences West Hollywood's Super Garage, an exclusive amenity available to a property buyer. In addition to the one-of-a-kind garage space, the purchaser of the garage will receive an allocation for a one-year lease of the company's latest exclusive McLaren 765LT supercar to complement their new West Hollywood home.

Dubbed "The Show Room," the 1,719-square-foot private gated garage is located within the new Pendry Residences West Hollywood and provides direct access via private elevator to Terrace Estate 608, a two-story penthouse Residence. The garage offers ample space for up to five cars, a private washroom, and a design allowance for the purchaser to customize the garage as they see fit – including an option to create the ultimate McLaren garage designed by EYRC Architecture in collaboration with McLaren Automotive. The garage is being offered together with Terrace Estate 608 for a package price of \$16 million.

"We are excited to partner with McLaren Automotive North America as they share our dedication to an unparalleled luxury experience. Through our collaboration with McLaren, Pendry Residences West Hollywood further elevates the residential living experience in Los Angeles," says Tina Necrason, Executive Vice President, Residential, Montage International. "Los Angeles residents are passionate about their cars and our Super Garage offers one discerning owner the opportunity to house their most prized vehicles in a space that is as luxurious as the Residence itself."

The McLaren 765LT is one of the most sought-after cars on the market. With only 765 set to be available globally, and this year's allocation already completely sold out, access to this model is truly extraordinary and an exclusive opportunity for one car enthusiast to add something very special to their collection. For the auto-enthusiast-in-training, McLaren is also including one of the newly-released kid's ride-on electric-powered McLaren Senna cars.

"We are delighted to be working with Pendry Residences West Hollywood to help create the ultimate auto enthusiast's dream garage," says Tony Joseph, President, McLaren North America. "The 765LT is the most dynamically advanced and engaging McLaren LT model to date. With allocations for the US market already filled, this is a unique chance to experience this incredible supercar."

About McLaren Automotive

McLaren Automotive is a creator of luxury, high-performance supercars. Every vehicle is hand-assembled at the McLaren Production Centre (MPC) in Woking, Surrey, England. Launched in 2010, the company is now the largest part of the McLaren Group. The company's product portfolio of GT, Supercar, Motorsport and Ultimate models are retailed through over 85 retailers in 40 markets around the world. McLaren is a pioneer that continuously pushes the boundaries. In 1981, it introduced lightweight and strong carbon fibre chassis into Formula 1 with the McLaren MP4/1. Then in 1993 it designed and built the McLaren F1 road car - the company has not built a car without a carbon fibre chassis since. As part of the Ultimate Series, McLaren was the first to deliver a hybrid hypercar, the McLaren P1TM. 2019 saw McLaren launch the 600LT Spider as well as the new GT, the track-only Senna GTR and unveiled the 620R and the McLaren Elva. In 2020, McLaren launched the 765LT. In addition, it unveiled the all-new lightweight architecture innovated and manufactured at the £50m McLaren Composites Technology Centre opened in the Sheffield region in the North of England that will underpin the next decade of McLaren's electrified future. To support the development, engineering and manufacture of its range of innovative sportscars and supercars, McLaren Automotive partners with world leading companies to provide specialist expertise, technology and solutions. These include AkzoNobel, Ashurst, Dell Technologies, Pirelli, Richard Mille and Tumi.
