

Steele Honda is now selling new and used vehicles from two convenient locations

Drivers in the St. John's area can shop used vehicles at a new Steele Honda location

ST. JOHN'S, Newfoundland and Labrador ([PRWEB](#)) March 16, 2020 -- Steele Honda, a Honda dealership located in St. John's, greeted the new year with a big announcement. The dealership recently opened a second location, housing the bulk of the dealership's used vehicle inventory. The second location is located at 25 Corey King Drive in Mount Pearl, NL, just a short trip from the dealership's first location at 547 Kenmount Road in St. John's, NL.

Steele Honda decided to expand with a second location to provide more room for its new and used inventories. The new location houses the dealership's used vehicle inventory, which allows the original facility to expand its new vehicle inventory and provide shoppers with more options at both locations.

Now that Steele Honda is open in two locations, drivers can contact a specific location to answer questions and concerns about either new or used vehicles. The original location can be contacted at 709-579-1999. The new location with used vehicles can be contacted at 709-726-8288.

Drivers who are interested in viewing an online inventory of either new or used vehicles at Steele Honda can do so for either location on the dealership's website, steelehonda.com. From the homepage of the website, drivers can click on "Shopping Used?" which will take them to a page where they can choose between the two locations to see used vehicles. At the top of the site, drivers can use the navigation options to choose between viewing new or used vehicles. Plus, they can find updated contact information, addresses and other important information.
