Pedestrian Safety Public Workshops - Please Join Us!

The New Mexico Department of Transportation (NMDOT) is making exciting progress on its statewide Pedestrian Safety Action Plan (PSAP) and wants to hear from you. The PSAP will provide NMDOT with actions and strategies to improve pedestrian safety on New Mexico’s state and U.S. roads in the years ahead.

As we shape PSAP recommendations, we want to hear from you about pedestrian safety issues and opportunities for improvements. Please join us during National Pedestrian Safety Month to provide input during one of three online workshops in October or early November. The sessions will include: overview of key information gathered so far, interactive activities, and next steps in the planning process.
