

PTM has announced a stand-alone version of the popular Touchscreen Timeclock

PTM has announced a stand-alone version of the popular Touchscreen Timeclock. This new software product (geared for the trucking industries) is independent from the Business Management Software that PLUSS also sells called PTM. Not only does this new time clock software have a new look and faster performance, it has many new and enhanced features.

([PRWEB](#)) May 16, 2004 -- PTM has announced a stand-alone version of the popular Touchscreen Timeclock. This new software product (geared for the trucking industries) is independent from the Business Management Software that PLUSS also sells called PTM. Not only does this new time clock software have a new look and faster performance, it has many new and enhanced features.

“Because I never trusted computers, I was afraid to let go of manually tracking my mechanics times. Since I started using the PTM Touch Screen Time Clock system, my fear has been replaced with creditable numbers and the joy of putting more money in the bank!”

TOUCH SCREEN TIME CLOCK

- Accurate accounting of time & jobs
- Log in and out of work orders
- Post time to jobs in progress
- Track non-billed hours & idle time

Powerful time tracking tools to complement your current system!!
