

Kent Automotive has just signed a contract with Falcon-Software's FalconGrafx division for the redesign of their corporate website.

Kent Automotive a subsidiary of Lawson Products has just signed a contract with Falcon-Software's FalconGrafx division for the redesign of their corporate website.

Victoria, BC ([PRWEB](#)) May 30, 2004 - Falcon-Software Company's FalconGrafx division today announced a contract agreement for the development of a new business website for Kent Automotive, headquartered in Des Plaines, Illinois. The project will include new site architecture, navigation and design templates and content restructuring. Falcon will also be developing a maintenance system and dynamic content tools.

Kent Automotive (www.kent-automotive.com) a subsidiary of Lawson Products provides specialty automotive repair products used to clean, repair and refinish vehicles, along with inventory control systems for the vehicular marketplace including manufacturers, auto dealerships and repair facilities throughout the United States and Canada.
