

Specialized ECU Repair Offering Free Extra Car Keys for All Porsche Customers

The leading engine control unit repair and replacement service in the United States will be running the key copy promotion through the end of March.

OAKLAND PARK, Fla. ([PRWEB](#)) March 17, 2021 -- [Specialized ECU Repair](#) is proud to announce that Porsche customers seeking to have their engine control unit fixed or serviced can get a free valet copy of their car key with their order through the end of March.

Owners of an early Porsche 911, 944, Boxster, or 996 anywhere in America can ship their car's ECU for repair to the shop in Oakland Park, FL. Customers interested in the free key promo should send one of their car keys in the package as well. When Specialized ECU Repair ships the unit back, customers will receive the new key copy along with the original key in their package.

“Keys are a critical part of any car, but they can get so easily lost and are often expensive to replace at a dealership,” said Jorge Morales, co-owner of Specialized ECU Repair. “When we realized we had an opportunity to make these keys ourselves, we decided this would be an excellent way to add value for our customers.”

Though most car owners receive multiple keys at their time of purchase, they can become easily lost or malfunction over time. Given the high cost of acquiring a new car key, many drivers simply opt to rely on their sole remaining key to their vehicle. A spare key provides peace of mind, convenience, greater security, and access to a car should the original keys become locked inside.

If you are interested in acquiring a free extra key for your Porsche and/or having your engine control unit serviced, please fill out the [Service Request Form](#) on the ECU Doctors website.

About Specialized ECU Repair
