

## **Local Arizona Dealership Buys and Sells Trucks and SUVs with Lift Kits Installed, Offers Professional Truck Customization**

*Trucks Only Lifted both buys and sells lifted trucks and SUVs, as well as accepting financing assistance on professional truck customization services*

MESA, Ariz. ([PRWEB](#)) March 16, 2021 -- Trucks Only Lifted—a Mesa, Arizona-based dealership that specializes in trucks and SUVs outfitted with lift kits—both buys and sells lifted trucks and SUVs. In particular, those looking to sell a lifted vehicle are encouraged to take advantage of the no-commitment, three-step buying process used at Trucks Only Lifted. The dealership also professionally installs lift kits and other accessories, alongside other auto services. Similarly, Trucks Only Lifted accepts auto service and customization financing from Snap Finance and Synchrony Bank.

Unlike many other dealerships where an installed lift kit disqualifies a vehicle from being bought, Trucks Only Lifted specializes in it. Those looking to sell their lifted truck or SUV are encouraged to visit the Trucks Only Lifted [Sell Us Your Truck page](#). Once there, potential sellers need only enter basic information about their vehicle, like year, make, model, mileage and other similar details to get a market value quote. If the potential seller is happy with the quote, they can then bring their vehicle into Trucks Only Lifted for an in-person appraisal. If the appraisal is to the seller's liking, then Trucks Only Lifted will buy the vehicle.

Those interested in buying or selling a lifted vehicle can visit [liftedtrucksonly.pro](#), where they will find the Trucks Only Lifted inventory, truck customization services, and the vehicle-buying service listed above. Trucks Only Lifted can be reached via phone at 602-354-7623 or by visiting the dealership at 550 S. Country Club Drive, Mesa.
