

Auction Direct USA Can Buy Your Car to Help Make Life Easier

Dealership Stores Can Buy Vehicles From Drivers

ROCHESTER, N.Y. ([PRWEB](#)) February 02, 2020 -- Many drivers struggle with getting rid of their current vehicle, especially if they try to sell it on their own. The vehicle might be passed over by shoppers who are looking through the classifieds, or the owner might encounter a shopper who does not have the best of intentions.

To make getting rid of a current vehicle easier, Auction Direct USA offers a car buying program where the dealership purchases the vehicle from the driver for a fair price. The driver is not required to buy from the dealership's selection of high-quality used vehicles in order to take advantage of this incentive.

Auction Direct USA is promoting this program in the Rochester area by airing special commercials, which can be heard on local radio stations 97.9 WPXY, 98.9 WBZA and 95.7 WROC. The voice behind the commercials is Jim Edwards, who is a Senior Buyer at the Victor/Rochester location of Auction Direct USA.

Auction Direct USA specializes in selling high-quality used cars from a variety of domestic and foreign brands. Drivers can find a wide selection of vehicle styles, including sedans, hatchbacks, minivans, crossovers, SUVs, trucks and more. The dealership strives to offer the highest quality and each vehicle is thoroughly inspected before being added to the sale inventory.

Drivers interested in shopping for a high-quality used vehicle with Auction Direct USA are invited to visit either of the dealership's two sales locations: Auction Direct USA-Raleigh (7601 Glenwood Avenue, Raleigh, N.C. 27612; 844-678-8048) and Auction Direct USA-Rochester (6520 NY-96, Victor, N.Y. 14564; 844-287-5491). Additional information about Auction Direct USA can be found at www.auctiondirectusa.com.
