

## Segway Warning and Safety Lights Available from Tektite

*Tektite Industries announces the availability of Warning and Safety Lights for the Segway.*

TRENTON, NJ ([PRWEB](#)) June 28, 2004 -- Tektite Industries has developed a line of Segway warning and safety lights that include emergency strobe beacons, headlights, taillights and accessory clamps. HID and LED headlights are available for low- to high-ambient light use; while a flashing LED taillight increases visibility of the operator from behind. For higher levels of safety and visibility, a battery-operated emergency strobe beacon provides 360° visibility. Available accessory clamps allow for convenient storage of gear, such as flashlights, strobe beacons, umbrellas and tools with long handles.

### Segway® Pro Light Kit:

Need to see or be seen on your Segway? Our Segway Pro Light Kit will make riding your Segway at night safer and easier—making this kit ideal for commuters. Each kit includes a super-bright H10 Seeker HID headlight with control column clamp and LED clip-on

### Segway® Light Kit:

Need to see or be seen on your Segway? Our Segway Light Kit will make riding your Segway in low-light conditions safer and easier. Each kit includes a Segway Accessory Clamp, Expedition Star LED flashlight and LED clip-on taillight.

### Segway® Strobe Beacon:

Designed for public safety use (i.e. security, EMT, police), our Segway Strobe Beacon combines our Strobe 300 with an adjustable clamp to add an emergency light to your Segway.

### Segway® Accessory Clamp:

Designed to hold a flashlight, strobe beacon or other items, this clamp attaches to the control column, and is fully adjustable.

Tektite is not affiliated with Segway, L.L.C., which owns the Segway® trademark.
