

Manufactured Homes Selling at a Whole New Level

New service caters exclusively to the manufacturing housing industry.

Tustin, California ([PRWEB](#)) July 28, 2004 -- Realty Net Applications, LLC is set to launch its newest project, MobilesMLS.com, in early August 2004. MobilesMLS.com was developed out of the need for a contemporary multiple listing service for the manufactured housing industry. "MobilesMLS.com takes the sales of manufactured homes to a whole new level" says Realty Net Applications President and Chief Systems Analyst Gerald Bennett. The system virtually eliminates the time consuming "on-hands" research previously required to find properties to show clients. There is no costly software to purchase or install and the system is simple and easy to learn and use. Any licensed manufactured housing dealer or agent is eligible for membership in MobilesMLS.

This system is designed to accommodate the needs of every sales organization from the smallest one-person dealer to the largest nationwide enterprise. MobilesMLS.com members can conveniently access large inventories of new and pre-owned manufactured homes listed for sale in their area. As a company grows from a single office to a multi-office operation MobilesMLS.com is there to instantly present the company's inventory to the market and to provide fresh new inventory for the manufactured housing sales team.

Members enjoy full access privileges to post, edit, upload photos, download forms and change the status of their own listings. Using MobilesMLS.com in the sale office or in the field from a member's laptop, the client can preview properties on-line in the presence of the member. When a client finds the homes he or she wants to see, the agent can then show the narrowed down list of properties. MobilesMLS.com lets the member control the entire sales process.

Initially, MobilesMLS.com will target the California manufactured housing market, but it has the capability of providing service nationwide. Dealers and agents can request a "FREE 60-Day Membership Test Drive" by e-mailing a request to TestDrive@MobileMLS.com.
