

Waterless Car Wash to be Supplied to U.S. Government by East Tennessee Veterans

The General Services Administration recently selected S&T Enterprises, a Disabled Veteran owned, small business, to provide Dri Wash N Guard Waterless Car Wash to the U.S.

Government . The contract was awarded on May 19, 2004. GSA recently completed the final phase of posting the waterless cleaning products, to the GSA Advantage web site. By using GSA Advantage, all Government Offices will now have access to Water Conserving products, allowing them to have the latest technology in vehicle cleaning products. Waterless Car Wash is just one of the products available. S&T Enterprises offers a full line of Waterless cleaning products on the web site. The awarding of this contact will help bridge the gap from a shortage of Disabled Veteran Owned businesses that do business with the Government.

Knoxville, TN ([PRWEB](#)) July 29, 2004 -- "In 1999, the U.S. Government instituted a policy requiring 5 percent of all Government contracts to go to companies owned by Disabled Veterans." Said Tom Hocker, Owner of S&T Enterprises. "There is a shortage of Veteran and Disabled Veteran owned businesses. The products we provide will allow U.S. Government offices world wide to take advantage of the new waterless technology. This will help to control the problem of contaminated water runoff from washing cars, airplanes and any other non-porous surface that is usually washed with water. It will help to conserve our precious water resources."

Stan Hocker, Tom's brother stated "we continue to have serious water shortages all over the world and it's not going to get any better if people don't start to take better care of the resources we have now. My goal is to see that my grandchildren still have plenty of drinking water when they get to be my age."

Waterless Car Wash is manufactured by Dri Wash N Guard International. S&T Enterprises is an Independent Distributor of Dri Wash N Guard Products.

DWG and Dri Wash N Guard are trademarks of Dri Wash N Guard International. GSA Advantage is a trademark of the General Services Administration.

About S&T Enterprises:

Located in Knoxville, Tennessee, S&T Enterprises is one of the first Independent Distributors of Dri Wash N Guard products to locate in the East Tennessee area. Tom and Stan have been in business with Dri Wash N Guard for three years. Both brothers retired from the U.S. Navy and are now in business together to sell waterless cleaning products. The brothers believe that if the military and other Government agencies are willing to switch to waterless technology, they may be able to make a dent in solving the current water crisis.

About Dri Wash N Guard International:

Located in Las Vegas, Nevada, DWG International is committed to developing and distributing Waterless cleaning products that will help promote water conservation. Most of the products developed by DWG are packaged in futuristic cans or bottles that also help reduce damage to the ozone layer. DWG is constantly searching for new products to solve the latest problems. Dri Wash N Guard products are not sold in stores and are only available through its distributors.
