

Sentinel going that extra mile

A new minibus was presented to Selworthy School in Taunton, Somerset, by the Wooden Spoon organisation in May 2004.

([PRWEB](#)) August 4, 2004 -- A new minibus was presented to Selworthy School in Taunton, Somerset by the Wooden Spoon organisation in May 2004.

Selworthy School caters for approximately 60 pupils aged between 2-19 who have a range of severe, profound and multiple learning difficulties.

Wooden Spoon is a rugby charity working to improve the lives of disadvantaged children and young people. The charity has converted the funds derived from their rugby and other activities to benefit the children and has been running for over 20 years.

Members raised £35,000 for the bus through a number of events and donations.

One of the charity's members donating money towards the minibus was Onyx Holdings Limited, the parent company to Radun Controls Ltd.

Onyx Holdings was proud to have its logo of Radun Controls' e-Registration system, Sentinel, for schools and colleges placed on the new minibus.

Radun Controls works very closely with schools in providing them with an effective real-time system for attendance registration, pupil location and security, so its great to have the opportunity to give something back to a school that would really benefit from having this minibus. Says Rod Hallett, Group Chairman of Onyx Holdings.

Having this minibus means that the school can provide for the necessary out of school curriculum coverage such as riding for the disabled, swimming in a larger pool for older pupils and regular excursions into the community on educational visits. This facility will also enable groups to go for a short residential living experience each year.
