

Quickway Carriers Inc. Selects Maddocks as New Trucking Software Provider

Maddocks Systems Inc., a leading supplier of enterprise software solutions for the trucking industry, continues to experience positive sales growth throughout every region in the U.S. Quickway Carriers Inc., headquartered in Nashville Tennessee, has recently selected Maddocks TruckMate for Windows (TM4Win), as the new software solution for their dedicated contract operation.

([PRWEB](#)) August 19, 2004 -- Maddocks Systems Inc., a leading supplier of enterprise software solutions for the trucking industry, continues to experience positive sales growth throughout every region in the U.S. Quickway Carriers Inc., headquartered in Nashville Tennessee, has recently selected Maddocks TruckMate for Windows (TM4Win), as the new software solution for their dedicated contract operation.

“Maddocks is looking forward to our new partnership with Quickway who we consider to be an industry leader in dedicated store delivery services,” explained Bob Maddocks, President and CEO of Maddocks Systems Inc. “Quickway took the correct approach of undergoing an extensive evaluation of all potential software vendors before selecting TruckMate for Windows as the best solution for their operation.”

Quickway Carriers Inc. operates a fleet of over 500 power units supported by temperature-controlled trailers. Quickway specializes in providing dedicated services to shippers including the nation’s largest retailers and grocery chains. In addition to their head office in Nashville, Quickway operates 11 terminals throughout the Southeast, Midwest and Southwest

Founded in 1981, Maddocks Systems Inc. (www.maddockssystems.com) provides software solutions exclusively to the transportation and logistics industry. Truckmate for Windows, is an enterprise-wide client server product designed to meet the needs of Truckload, LTL, Brokerage/Logistics, Bulk, Intermodal and Private carriers. With over 400 installed systems, Maddocks is one of the leading trucking software providers in North America.
