

## How to Beat a Speeding Ticket

*Nothing to memorize. No need for witnesses, pictures, tape recordings, or other gimmicks. Fact is, none of those work reliably.*

*But you do need to know exactly what to say, and, just as important, exactly what not to say and do. But first, let's make one thing clear.*

*There is only one reliable way to win in court:  
Sound legal argument. Based on the law.*

([PRWEB](#)) August 21, 2004 -- Case Dismissed shows us how to beat the system. Anyone can follow this simple program and have the judge say "Case Dismissed". The police agencies only care about the money. They do not expect you to come to court and fight your speeding ticket. Using the steps outlined in this program you will find loop holes that are waiting for you to jump into.

Estimates are that over 115,000 speeding tickets are written every day in the United States! It's a multi-billion dollar influx of funds. Did you know that insurance companies often underwrite the cost of expensive radar and laser guns and GIVE THEM to troopers? Why do you think they do that? I can assure you it isn't from the goodness of their heart.

Case Dismissed has a legal, proven, easy-to-follow strategy that is highly effective in beating speeding tickets. You can literally print out the appropriate section and read it in court. Anyone can do it, and hundreds have! Visit <http://www.swapclix.com/speed/redirect.php> to learn how you can beat the system too.

Of course, you could go out and hire yourself a lawyer for hundreds of dollars (and by the way, you will pay them whether you win or lose so what incentive do they have to spend time on your case?) Or you could invest in the one book that can really help you beat your speeding ticket Case Dismissed Works Because it is Based on the Law.
