

## Text Message Traffic Alerts

*MyTrafficAlerts.com is a text message traffic alert service for the Chicago area. Traffic alerts for major Chicago routes are sent as text messages to cell phones, email addresses, and/or PDA's. Alerts are sent in user-selected half hour intervals. First thirty days are free, \$2.99 per month afterward.*

([PRWEB](#)) September 15, 2004 -- WHAT WE ARE

MyTrafficAlerts.com is a personalized service that updates travel times for Chicago-area route segments of interest to you via text messaging on your cell phone, PDA, and/or your email.

### WHAT WE DO

MyTrafficAlerts.com sends you updated travel times for your route segments for the time periods you want. Inbound Eisenhower 7:00- 7:30am? No problem! Outbound Stevenson 5:00-5:30pm? Done! You have frequent different routes? Change as often as you like! We will send your most recent profile within minutes of receiving it! Want your morning alerts sent to your cell phone and afternoon alerts sent to your office email? Any combination you want!

### BENEFITS

Learn about delays before you are part of them! Save time and aggravation! Detour around snarls up ahead! If you drive in traffic, this service is for you! Whether you drive to work, school, for pleasure, or home, MyTrafficAlerts.com can save you valuable time! Perfect for commuters, salesmen, teachers, doctors, shoppers, Moms, Dads, teenagers, anyone who drives in traffic!

### RISK FREE

We're so sure you'll enjoy MyTrafficAlerts.com that your first thirty days are free! Following your introductory period (no credit card information collected), service costs just \$2.99 per month for individual accounts, or \$1.99 per month per user for corporate accounts with five or more users.
