

MCO Transport, Inc. Selects Maddocks as New Trucking Software Provider

Maddocks Systems Inc., a leading supplier of software solutions for the transportation and logistics industry, continues to expand throughout the Southeastern United States. MCO Transport, Inc., headquartered in Wilmington, North Carolina, has recently selected Maddocks TruckMate for Windows (TM4Win), as their new enterprise-wide trucking software solution.

([PRWEB](#)) December 2, 2004 -- Maddocks Systems Inc., a leading supplier of software solutions for the transportation and logistics industry, continues to expand throughout the Southeastern United States. MCO Transport, Inc., headquartered in Wilmington, North Carolina, has recently selected Maddocks TruckMate for Windows (TM4Win), as their new enterprise-wide trucking software solution.

“Our selection of Maddocks Systems culminates a long search for a system which will enhance the service capabilities which we offer our customers,” explained Daniel McComas, President and Owner of MCO Transport, Inc. “Now we will be able to provide up to the minute information to our clients, across the whole breadth of services we provide.”

MCO Transport, Inc. operates a fleet of over 160 trucks that utilize modern van and flatbed trailers with the capability of configuring to customer load requirements. MCO Transport specializes in providing intermodal transportation services from ports along the Southeastern U.S. coast. The company has also diversified to offer intrastate and interstate services enabling MCO to efficiently handle the needs of local, regional and national clientele.

“Maddocks is looking forward to providing MCO Transport Inc. with a new software solution that will help continue their long history of providing superior service and efficient delivery,” said Bob Maddocks, President and CEO of Maddocks Systems Inc. “The flexibility of our software solution is well suited for the range of transportation services MCO provides shippers.”

MCO Transport has strategically located terminals throughout the Southeast to provide expedited delivery to all customers. Current terminal locations can be found in Brunswick and Savannah Georgia; Charleston, South Carolina; Wilmington, NC and soon, Jacksonville, Florida.

Founded in 1981, Maddocks Systems Inc. (www.maddockssystems.com) provides software solutions exclusively to the transportation and logistics industry. Truckmate for Windows is an enterprise-wide client server product designed to meet the needs of Truckload, LTL, Brokerage/Logistics, Bulk, Intermodal and Private carriers. With over 400 installed systems, Maddocks is one of the leading trucking software providers in North America.
