

## **Victory Motorcycles of Long Island Adds Viper & Independence Brands.**

*Victory Motorcycles of Long Island is now the largest multi brand American V-Twin dealer on Long Island.*

([PRWEB](#)) October 6, 2004 -- Victory Motorcycles of Long Island has added two new American V-Twin cruiser and chopper lines to its existing Victory Motorcycles dealership. Viper Motorcycle Company (New Hope MN) manufactures the largest v-twin engine in an American production bike (The Diablo 128 ci) and has three more models (cruisers and choppers) due out in 2005.

The other exciting motorcycle line is from Independence Motorcycle Company (Tucson Az). With five American v-twin cruisers and choppers, Independence is the company to watch. Victory Motorcycles is a great company with fantastic products, states Bill Towart, owner.

However, in an attempt to attract all V-Twin enthusiasts, we have decided to add these two other exciting products. Choppers continue to be the current rage in the industry and now, we have four chopper models starting at \$19,995.00. We will continue our expansion into the 2005 model year and other products are on the way.

Our showroom is at 389 Ft. Salonga Rd. Northport, NY 11768 (631) 754-6134
