

Motorcycle Industry Jobs.com

This is the ultimate destination for job seekers who are passionate about the motorcycle industry and possess talent, aptitude and industry experience necessary to fill positions at top companies within the motorcycle industry.

([PRWEB](#)) October 7, 2004 -- Motorcycle Industry Jobs.com (MIJ) is the ultimate destination for companies and job candidates of the motorcycle industry. As the first Internet Job Board built specifically for the motorcycle / powersports industry, MIJ provides a single source for companies to find employees and for candidates to find job opportunities.

Alex Baylon founded Motorcycle Industry Jobs after he resigned his position of sales and marketing manager for Motonation a small distributor in the powersports industry. Soon after word got out about his resignation he received tremendous support from the industry with job leads from motorcycle dealers, magazines, competitors, and other industry insiders. He believed there must be a better way for job seekers and companies of the motorcycle industry to come together other than word of mouth.

With only 6 months in business we have already helped dozens of companies find qualified candidates with the powersports experience necessary to fill those job openings. Mary Seplicka the editor of Dealersnews Magazine said "After many months of looking for an off-road editor I was able to fill the position soon after placing a help wanted ad in Motorcycle Industry Jobs.com. The position had been vacant for months until I learned about MIJ and decided to place the ad." MIJ also introduced many people into the powersports industry. MIJ received emails from people outside of the industry that were looking to leave their job and enter the motorcycle industry, which is not always just another job it's a way of life and the passion for motorcycling.

MIJ provides a one stop solution for Powersports companies to find talented job candidates who are passionate about the Powersports industry and possess talent, aptitude and industry experience necessary to fulfill a company's vital staffing need. The MIJ network provides a free service to job seekers with tools for finding employment within the Powersports industry. Search the MIJ database for job opportunities solely for the motorcycle / powersports industry.
