

## **Database of Engine Specs Now Available Online for Car Restoration Enthusiasts**

*Second Chance Garage (secondchancegarage.com), an online magazine dedicated to the car restoration hobby, has create an Engine Specs Database.*

([PRWEB](#)) October 28, 2004 -- A database of engine specs and other important information for the car restoration hobbist has been added to the Second Chance Garage website. Although Second Chance Garage is an online subscription-based magazine for car restorers, the database is one of the free sections available to all site visitors.

The database project is an enormous undertaking. Because of that, automobile year, make, model and engine data will be added to the database incrementally. Currently classic car data is available for 1946 to 1956 Buicks, Fords, Chevys, Mercurys, Plymouths, DeSotos, and soon to be added, Studebakers.

Second Chance Garage paid subscribers receive access articles on Auto Theory, How-to's, Auto-Biography, Product Reviews, Forums, Dr. Crankshaft, Beginners Corner and more. The Engine Specs Database is available for free to all site visitors as a way for Second Chance Garage to enhance the car restoration hobby for all enthusiasts.
