([PRWEB](#)) October 27, 2004 -- SNUGTOP's popular "Super Sport" fiberglass truck caps are now available for 2005 Toyota Tacoma and Tundra Double Cab pickups. The Super Sport's graceful lines compliment the Toyota factory styling, and provide a gas-saving aerodynamic enhancement. Important design features include large, frameless side windows, a big all-glass rear door and an integrated LED rear brake light.

Secure cargo storage is assured through use of SNUGTOP's Rotary Latch locking system (which can also be locked from the inside for camping purposes) and optional award-winning EZ-Open lock that "pops" the rear door open when the key is turned. Other key features include a built-in drain channel that diverts the flow of water when the tailgate is open, heavy-duty hardware, and the easy-to-use "hidden" mounting system.

The one-piece [truck cap](#) has a finished edge that blends into the vehicle's body lines; caps are painted to match Toyota factory colors using the highly regarded DuPont basecoat/clearcoat process. SNUGTOP backs the "Super Sport" with a Lifetime Paint Warranty while the cap's construction is covered with a industry-leading Lifetime Structural Warranty.
