([PRWEB](#)) November 24, 2004 -- Blaylock Turbochargers is centrally located in the U.S. at Baxter Springs, Kansas. Since 1980, we have remanufactured turbo components to precise specifications.

Blaylock has the best selection. They remanufacture parts for virtually ALL makes of turbos sold in the United States.

They offer quick turnaround and in some cases when you have an "emergency", we give you one-day service. Plus, all parts come with a complete warranty.

When you use their service, you'll reduce your shelf inventory. When you use their remanufactured parts, you'll decrease your costs by up to 50%.

Blaylock Turbochargers has been remanning Turbo components for many years. Now, they offer complete Turbocharger Units. They have a large inventory of turbochargers ready for shipping, or they will repair your turbocharger. The turbos are priced with or without cores and they carry a warranty equivalent to new turbos. Each turbo is balanced to factory specifications. They can remanufacture virtually any turbo which is used in the United States. At Blaylock, they have developed precise procedures for the remanufacture of all turbocharger component parts.

Remanufactured parts cost 50% to 70% of new parts. Now you can reduce your cost of turbo parts and increase your profits. New parts take up to several weeks to receive or are not available at all. Repair of component turbo parts takes a few days. In case of an occasional "emergency", they'll cover you with 1 or 2-day repair service.

In order to reduce your turnaround time and save you money, they offer core bank services. When you send your parts to them, they'll remanufacture them and store them for you until you need them. With this service you have a twofold benefit. You'll save time because your parts will be ready to ship when you call. They'll keep the cost down by "batching" your parts. And you will only get charged for the parts when you request them.

They remain each turbo component with exceptional quality and competitive pricing. Give them a call and find out for yourself!
