

## **Johnston Madvac Introduces the New Johnston VT605/650 Pure Vacuum Sweeper**

*The New Johnston VT606/650 is designed to meet the requirements of the most demanding municipal and contractor applications.*

([PRWEB](#)) November 27, 2004 -- Equally at home on municipal street cleaning or heavier duty work sites, the VT605/650 delivers consistently high pick-up performance — even in contractor applications such as road resurfacing and dirt pick-up around construction sites and access roads.

With durable, rugged construction and more standard features than any other vacuum sweeper on the market, the VT605/650 versatility makes it ideal for a variety of sweeping applications from highways to residential areas and construction sites to parking lots.

### **Features of the VT605/650**

- John Deere turbocharged diesel engine
- Sealed engine compartment
- 8.5 cu. Yd. Stainless steel debris hopper
- 343-gallon stainless steel water tank
- Top mounted catch basin hose
- 190 sq. in. vacuum nozzle

Johnston background: Johnston Madvac Inc has a worldwide customer network of 200 stocking distributors in over 70 countries. Madvac designs and manufactures vacuum litter collection vehicles since 1986, and has unquestionably become the leader in its field on the world market. It delivers total quality vehicles for airports, highways, amusement parks, cities & municipalities, federal & state properties, industrial & commercial complexes, landfill sites, parks, campgrounds, schools & universities, shopping centers & parking lots, streets and underground garage applications.
