

## **PSI-FLEET.com is a Fully Integrated Software Package Developed Specifically for use in the Vehicle Rental Industry**

*PSI-FLEET.com customized software versions to match your business needs, PSI-FLEET helps you manage your operation productively and efficiently.*

([PRWEB](#)) December 16, 2004 -- PSI-FLEET's user-friendly menu-driven system provides the widest range of features and functions to monitor and maintain your fleet.

As a leading software solution for the vehicle rental industry, PSI-FLEET is the tool you can trust to increase your business potential and maximize your profits. They also offer a free demo of this software on their company website: <http://www.psi-fleet.com>.

PSI-FLEET's affordability and ease of use makes it the system of choice and the largest Canadian supplier of vehicle rental industry software. As our many customers have learnt, PSI-FLEET will greatly enhance the productivity and organization of your business.

The original PSI-FLEET was developed by Productivity Systems Inc. in 1985, based on the requirements of two major car rental companies. Since that time, PSI-FLEET has been continually enhanced to operate on today's advanced computers, making it a #1 comprehensive solution for the day-to-day challenges of fleet management and control.

PSI-FLEET is currently in use by a wide range of companies. Our clients include franchisees of Dollar Rent-A-Car, Thrifty, Budget, General Motors (GMAC), A-Plus, Premium, Affinity International, Cheap-Wheels-For-Rent, HOJ, Rent-A-Wreck, Ryder and Delta Rent-A-Car as well as a numerous independent companies.

They have a well-rounded team of software developers, sales representatives and support technicians, working around the clock to provide solutions to your business needs.
