

Honda Replacement Parts That Fit the 2005 Honda Accord Hybrid

The Accord has a powerful, 255-hp, 3.0-liter, i-VTEC[®] V-6 engine with Integrated Motor Assist (IMA[®]), dual-zone hybrid automatic climate control system, leather-trimmed interior, heated front seats and a driver's seat with 8-way power adjustment.

([PRWEB](#)) May 6, 2005 -- After a long wait, now comes a hybrid car that delivers more power and less gas, the 2005 omatic climate control system, leather-trimmed interior, heated front seats and a driver's seat with 8-way power adjustment. Honda Accord Hybrid makes it in the right time when there is a worldwide clamor for fuel efficiency and clean air.

The Honda Accord again made it to the prestigious 2005 "10 Best" list award of Car and Driver Magazine for suitability, intended purpose and the ability to satisfy discriminating drivers. In January 2005, Autobytel has also awarded the Accord with the "2004 Consumer Choice Award" for being the most requested by Autobytel's online automobile shoppers during the year. According to Autobytel's Web site, "Few other vehicles have captured the combination of practicality, fun, value and affordability as successfully as the Accord."

The Accord has a powerful, 255-hp, 3.0-liter, i-VTEC[®] V-6 engine with Integrated Motor Assist (IMA[®]), dual-zone hybrid aut

Its exterior has exclusive black chrome front grille. From the rear, the unique tailgate design and new XM[®] antenna are both attractive and functional, while the exclusive lightweight alloy wheel design provide sporty look to this visually captivating, four-door sedan. An exclusive rear spoiler and aerodynamic 16-inch alloy wheels give you the sporty look you need for a car built on performance.

A look at the Accord's interior treats you to leather seats; automatic climate control system, remote entry system and an 8-way power driver's seat. It is also equipped with Honda Satellite-Linked Navigation System with Voice Recognition as an option.

Safety features include a standard anti-lock braking system (ABS), standard dual-stage, dual-threshold front airbags (SRS) as well as front side and side curtain airbags. To aid in stability, there is a Traction Control System (TCS), too. But the biggest difference with the Accord Hybrid is the Instant Mobility System (IMS), which acts in place of a spare tire to reduce weight and improve gas mileage. The system includes a compressed sealant and air compressor to help easily repair and re-inflate a damaged tire.

Partstrain like Honda has been, through the years, synonymous with integrity and dependability serving clients with the highest-quality Honda auto replacement parts. Top caliber Honda product lines and first class service define Partstrain. Its certified secure online store <http://www.partstrain.com/ShopByVehicle/HONDA> has first rate Honda body parts with greatly reduced prices.
