

A Whole New Bikers World, Bike America Online

Featured as "America's Best Biker Site" offering bikers on the net a new experience. Bike America Online (online biker community) Announces it's Grand Opening.

([PRWEB](#)) January 19, 2005 -- After 10 months of building, and hundreds of thousands of lines of programming BikeAmericaOnline.com opens what they say to be the only true online biker community.

It's owner "Spider" an avid Harley-Davidson fan, says he got the idea from the ever expanding motorcycle industries recent growth. " I used to watch Jesse James (West Coast Choppers) And The Teutul's (Orange County Choppers) build these great bikes on the Discovery Channel.

When surfing around the web and different groups I saw an opportunity to build a website that really gave back to the industry. I contacted Joe of Jp3consulting.com and asked him what could be done. After numerous conversations, we came up with the idea to build a site that virtually offers everything available to the web today in one huge site.

Currently members of the site receive their own biker website, E-mail, motorcycle news feed, free classifieds ads, a bikers meeting bikers section, forum, Huge events calendar, biker friendly list, biker chat with private rooms and in the extreme near future online messaging that will enable members to contact anyone on the site. They also plan on adding new features every 45 days or so.

Spider says, "Joe, has done a fabulous job pulling the site together with an easy to use push button control panel." making the site very easily navigated. The site is free of all paid advertising and pop-ups. "They annoy me" adds Spider. "I just want a site where all by friends and members can come and have a great time without everybody tiring to get us to buy something."

The site can be toured and is offering a free trial membership during it's Grand Opening.
