

## **Truxxx Manufacturing Signs Wakeboarder Ty Udell**

*Pro Wakeboarder Ty Udell secures sponsorship from Truxxx Manufacturing, makers of lift kits for trucks and SUVs*

Tucson, AZ ([PRWEB](#)) March 7, 2005 -- Wakeboarder Ty Udell is the newest addition to the Truxxx Manufacturing team of sponsored athletes. Ty is from Swan Lake, Montana and with six years of wakeboarding under his belt before the age of 21, he is just now coming into the spotlight. "After getting some fantastic new wheels and tires from my sponsors at American Racing Wheels and B.F. Goodrich, I realized that I would need a lift kit to fit them on my truck without rubbing. I did some research, and decided that the Truxxx Lift and Level Kit would give me the look I wanted, without sacrificing the ride or the towing capacity of the truck. It was important to me that the truck still be fully capable of hauling my Mastercraft X2 around."

It turns out that by deciding to go with a Truxxx Lift and Level Kit, Ty landed another sponsor. Truxxx Manufacturing's CEO is an avid wakeboarder himself. "We had seen some coverage of Ty in the magazines, and when he called to ask about how the kit would affect the towing performance of his truck, the conversation evolved into one about wakeboarding in general and that when we decided to sponsor him," said Darren Pilling, CEO and founder of Truxxx. "We want to support the up-and-comers in the extreme sports areas, since we are enthusiasts ourselves."

This spring and summer Ty will be traveling the west coast doing photo shoots and contests to promote Truxxx Lift and Level Kits and the rest of his sponsors which include American Racing Wheels, BFGoodrich Tires, Flowmaster Exhaust, Bully Dog Performance Technologies, Mastercraft Towboats, Double Up Wakeboards, Dragon Optical, and Ediktid Clothing.
