California dealership offers a variety of vehicle protection plans to accommodate every shopper's needs

THOUSAND OAKS, Calif. ([PRWEB](#)) August 19, 2021 -- Neftin Westlake Volkswagen in Thousand Oaks, California, in a refreshing move, has come up with a suite of vehicle protection plans that aims to offset the extortionate and unexpected expenses of vehicle maintenance. This array of plans and products was designed keeping in mind that the manufacturer's warranty sometimes fails to bear the complete expenses of certain damages in new and [pre-owned vehicles](#). However, now, with the help of this reputed dealership's line of vehicle protection products, customers can look beyond the manufacturer's warranty in instances of their cars being totaled, damaged, or stolen. This line of meticulously designed protection plans also comes through in the events of mechanical breakdowns, thefts, minor and major damages.

The [vehicle protection plan](#) offers the following products to the shoppers—

- Vehicle Service Contracts, that provide customers protection for the road that lies ahead of them and step in with an array of perks right where the manufacturer's warranty ends.
- Guaranteed Auto Protection (GAP), that covers the cost of repair of the vehicle in the event of a total loss when the auto insurance caps.
- Select Protection, a plan that is customizable according to every customer's needs and fits well into their budget. The Select Protection plan also comes with Emergency Roadside Service.
- Universal Security Guard, a theft-deterrent where retro-reflective labels are applied to some specific areas of a car. These labels warn potential thieves that the vehicle is protected. This protection plan also steps in to bear the costs of any theft-related expenses.

It is important to note that these protection plans might have certain restrictions and might not be available in every state.
