

Weave Workforce and Fixed Ops Pros Announce Strategic Partnership

The collaboration will offer workforce optimization solutions to automotive dealerships throughout the United States and Canada.

ANN ARBOR, Mich. ([PRWEB](#)) March 02, 2021 -- Weave Workforce and Fixed Ops Pros have signed a partnership agreement to bring workforce optimization software to automotive dealerships throughout the United States and Canada. The Weave Workforce solution helps dealerships increase profit and productivity by applying AI-based workload forecasting and automated technician scheduling. Through its proprietary platform, Weave Workforce is able to accurately predict and match staffing to the peaks and valleys of demand inherent to any service business.

Fixed Ops Pros brings its single point marketing platform and extensive relationships with automotive dealers to the partnership, allowing for fast deployment of the innovative Weave Workforce software solution. Its network of agent-dealer relationships and a stand-alone online presence uniquely qualifies Fixed Ops Pros to reach a wide audience throughout the industry.

“We have seen incredible results with our product in the automotive industry,” says Weave Workforce CEO John Larsen. “I am thrilled to partner with Fixed Ops Pros to widen our reach.” Joseph Perez, CEO of Fixed Ops Pros adds, “The Weave Workforce product is an incredible asset for this industry. We are excited to be joining forces and adding this powerful tool to our productivity software portfolio.”

Implementing Weave Workforce can fundamentally improve the throughput and revenue of dealership service departments, delivering a tangible business impact and optimizing time for customers, technicians, and dealership management. Taking into consideration each dealership’s unique business parameters, Weave Workforce software maximizes proficiency by increasing productivity and efficiency on the shop floor.

About Weave Workforce

Weave Workforce is a technology company applying artificial intelligence to harmonize employee schedules to the fluctuating demand of service businesses. Weave Workforce achieves this with an intelligent forecasting, staffing, and scheduling engine that combines a company’s internal data with external signals and human intuition to provide simultaneous improvements in productivity and customer satisfaction.
