

## **World Patent Marketing Success Team Announces E-Z Seat, A Disability Patent That Helps Handicapped People Get Out Of Cars**

*World Patent Marketing Reviews A New Disability Invention. Will E-Z Seat Be the Next World Patent Marketing Low Cost Success Story?*

Miami, FL ([PRWEB](#)) September 03, 2016 -- World Patent Marketing, a vertically integrated manufacturer and engineer of patented products, introduces The E-Z Seat, a disability invention that helps people get out of cars.

"The disability industry is worth \$544 billion," says Scott Cooper, CEO and Creative Director of World Patent Marketing. "Customers with an investment in disability products are becoming more and more supportive of companies that demonstrate disability-inclusive action."

"Having a disability is very unfortunate and it can make living life very difficult," says Jerry Shapiro, Director of Manufacturing and World Patent Marketing. "That's why ideas like this disability invention are so important for the public. They help the people who need help the most."

The E-Z Seat is a disability invention that assists handicapped people in getting out of a car. Handicapped people usually have some trouble moving and often need help getting out of their car. This invention is a round disc that swivels to will help these handicapped individuals. It is primarily designed to be used in a car but can also be used in other environments. This invention also includes a hydraulic lift to make it easier for people assisting the disabled people to not injure themselves. It makes getting out of a car a much less arduous task for handicapped people.

"Hi, I'm Kathy Starks, creator of the E-Z Seat," says inventor Kathleen S. "For many years, I struggled with assisting my disabled mother in and out of cars anytime we went somewhere. The strain on my back and knees was sometimes unbearable. There are many swivel seats on the market, but none that have a hydraulic lift. The E-Z Seat solves this problem with it's hydraulic lift, allowing the individual to be placed in almost standing position while exiting a car. It would have been wonderful to have something like this when I was assisting my mother. The E-Z Seat could also be used in rehabilitation facilities and nursing homes where physical therapists, nurses, and others work with individuals in therapy situations."

The E-Z Seat is a disability invention that gives people a swivel seat that allows them to get out of cars easily despite a handicap.
