

Gale Toyota is offering drivers a new transform disinfect for their vehicle

Drivers who are interested can take their vehicles into Gale Toyota today.

ENFIELD, Conn. ([PRWEB](#)) March 03, 2021 -- Gale Toyota is happy to announce that they are now offering drivers a new transform disinfect that can be used on their vehicle. All drivers have to do is schedule an appointment, and the process can be done in just a matter of 30 minutes. Throughout these thirty minutes, a dedicated team member from Gale Toyota will use the new disinfectant to thoroughly clean out the vehicle that is brought into the dealership.

This new disinfectant kills 99.9% of bacteria within just seconds of interaction and has been registered by the EPA as a solution that kills off the coronavirus. With a complete sanitization of the vehicle brought in, the vehicle will leave Gale Toyota completely clean and coronavirus-free.

For qualified personnel, such as nurses, doctors, CNA's, police, fire, and EMT, this service will be done free of charge. This is Gale Toyota's way of saying thank you to our front-line workers, and their best effort to give back to them, as they have helped all of us throughout these unprecedented times.

Drivers who would like to schedule an appointment to have their car cleaned with this new disinfectant can visit the Gale Toyota website https://www.galetoyota.com/?utm_source=prweb&utm_medium=press_release&utm_campaign=2021mar3 and schedule an appointment now. This solution is only available at the local Gale Toyota dealership, which serves Enfield and the greater Hartford, CT region. For the qualified personnel that can take advantage of this offer free of charge, all that is needed at the time of cleaning is a valid ID stating the front-line worker status.
