

San Francisco Toyota Offers Quick Online Credit Application

No Social Security Number or Date of Birth Required When Applying

SAN FRANCISCO ([PRWEB](#)) September 29, 2021 -- San Francisco Toyota continues its trend of making online car shopping easy on Bay-area drivers by offering a quick online application to its website visitors, which does not require the visitor to give out their social security number or their date of birth.

With car shopping having made major moves to the online world even before the pandemic began, it remains important to consumers to have as much convenience as possible when looking for their new set of wheels, which means providing them with a valuable tool in the form of a convenient and informative website. Doing as much on the internet before ever stepping foot into a dealership's showroom remains vital in the modern world, and San Francisco Toyota has developed its website with this kind of ease of use in mind.

Among many different pages included on the San Francisco Toyota website is an online credit pre-approval page. If customers have had their eye on a particular vehicle or two in the San Francisco Toyota new or pre-owned inventory, they can use the online credit pre-approval tool to get a better idea of how much they would be able to pay each month when financing the vehicle. The customer simply needs to fill out a short form with their first and last name, residential address, home phone or mobile phone number and email address. Once that is completed, a representative from San Francisco Toyota will get in touch with the customer about their application and get the financing process started.

For questions about the online credit pre-approval process or anything else offered at San Francisco Toyota, interested parties are encouraged to visit www.sftoyota.com or call 415-504-1947 to speak with a representative. San Francisco Toyota has two locations within the city: 3800 Geary Boulevard and 1701 Van Ness Avenue.
