

Mitchell 1 Repair Information Software Now Available on the Decisiv Marketplace

Improved ease of access to the Mitchell 1 TruckLabor Module adds to the benefits of the Decisiv SRM Case service event management application

GLEN ALLEN, Va. ([PRWEB](#)) April 28, 2021 -- Decisiv, Inc., the industry leader in [Service Relationship Management](#) (SRM) solutions, announced today that the TruckLabor Module in Mitchell 1 TruckSeries truck repair information software is available in the [Decisiv Marketplace](#).

“The easy availability to Mitchell 1’s TruckLabor Module enables fast and effective access to our SRM Case service event management application,” said Michael Gibson, VP Strategic Partners at Decisiv. “It allows users to seamlessly transition between SRM Case. With one click access, connected participants in the Decisiv SRM Ecosystem can streamline repairs by improving service workflow and event efficiency.”

By activating a Mitchell 1 TruckLabor Module subscription, users gain immediate access to an active link that enables them to launch it directly from any case, access the TruckLabor Module, create an operation and import all of the details into the Decisiv SRM platform.

The TruckLabor Module within the Mitchell 1 TruckSeries provides comprehensive mechanical labor estimates. Some of the operations included are vehicle repair preparation, drain and refill fluids, preventive measures, and position, set-up, return tools and equipment, among others.

"The integration of TruckLabor in the Decisiv SRM application is an excellent way to enable fleets and service providers to estimate a job accurately while enabling proper planning of time and resources, and at the same time enhance communication and collaboration," said Kristy La Page, business manager of the Mitchell 1 commercial vehicle group.

Decisiv and Mitchell 1 first announced integration plans in mid 2019 to supply service providers and fleets with seamless access to Mitchell 1 products and services and enable Mitchell 1 independent service providers to join the [Decisiv SRM Ecosystem](#). The integration allows fleets or service providers using the Mitchell 1 suite of repair information and shop management solutions for Class 4-8 trucks to incorporate critical asset repair and diagnostic information into a service event case in the SRM platform.

About Mitchell 1

Headquartered in San Diego, California, Mitchell 1 offers a complete line of integrated repair shop software and services to help commercial truck and automotive professionals improve productivity and profitability. Mitchell 1’s TruckSeries is the only comprehensive [truck repair information software](#) suite of its kind available for Class 4-8 trucks, delivering a one-stop, single log-in, all-makes data resource with interactive wiring diagrams, digital pictures, DTC-to-diagnostics, and more, all delivered in seconds. TruckSeries is integrated with Manager™ SE Truck Edition, Mitchell 1’s industry-leading [truck shop management software](#) that delivers an end-to-end solution for every step of the repair process.
