

Cecil Atkission Toyota is offering Toyota Express Maintenance

The Express Maintenance includes Oil & Filter Change, Brake Inspection, Tire Rotation, Fluids Inspected & Replenished, and Multi-Point Vehicle Inspection

ORANGE, Tex. ([PRWEB](#)) August 31, 2021 -- Cecil Atkission Toyota located at Orange, TX has introduced a Toyota Express Maintenance Program to simplify the servicing and maintenance for customers. Cecil Atkission Toyota's service team follows a 'pit crew' approach to speed up the servicing process. The Toyota Express Maintenance services include:

Multi-Point Vehicle Inspection: Qualified technicians conduct an extensive inspection of all the exterior, mechanical, technical, and interior components of the vehicle to ensure their functionality.

Oil & Filter Change: This step includes the checking of oil level in the car, draining old oil and refilling it with new synthetic oil, replacing the oil filter with a Genuine Toyota oil filter, and resetting of the maintenance indicator light.

Brake Inspection: Brake pads, brake discs, and calipers are inspected and replaced with new ones if in case of excessive wear and tear.

Tire Rotation: War and tear of the tires are checked, and the tires are rotated if the usage is above 5,000 miles from the previous inspection/service. Next, the technician will also reset the Tire Pressure Monitoring System (TPMS) light.

Fluids Inspected & Replenished: Vital fluids like the coolant, brake fluid, power steering fluid, windshield washer fluid, and transmission fluid are checked and replenished at no additional charge.

For more information on the Toyota Express Maintenance program and to schedule a service, customers can visit Cecil Atkission Toyota located at 2500 IH-10 West, Orange, TX. The dealership can also be contacted by phone at 833-378-1225 or through their website – www.ceciltoyota.com.
