RE: E46 Recall Campaign 02V-²²³~~233~~ (Recode Airbag Control Unit)

Service Information Bulletin (#B72 03 02) and the customer notification letter state that vehicles affected by this recall are certain 1999 Model Year BMW 323i & 328i 4-door automobiles.

It has been brought to our attention that some of the affected vehicles are actually 2000 Model Year vehicles. This had led to some confusion for customers of affected vehicles which are indeed 2000 MY. Production of these models for the 2000 MY began in 06/1999. Vehicles affected by this recall were produced 04/1999 through 08/1999.

The actual vehicles and the chassis number ranges provided in SI B72 03 02 have not changed.

As always, to determine if a specific vehicle is affected by a recall campaign, utilize the "Service Menu" of the DCS (Dealer Communication System). Based upon the response of the system, either proceed with the corrective action or take no further action.

SI B72 03 02 and the customer notification letter will be revised to state "certain 1999 and 2000 Model Year BMW 323i & 328i 4-door automobiles".

We apologize for any confusion caused by this error.
