RE: Letter dated NOV 04, 2008 – EQ08-013
Arvin Meritor recall of wheel studs supplied on some of their axles.

Arvin Meritor File: C8AE
NHTSA File: 08E-038

Information Requested under 573.6 (1)

This report is submitted by:

Ferrara Fire Apparatus, Inc.
27855 James Chapel Road
Holden, LA 70744

Information Requested under 573.6 (2)

Arvin Meritor identified six axle serial numbers that were supplied to Ferrara Fire Apparatus, Inc. which could possibly contain the suspect wheel studs identified with the marking of "NC 11". (see attached)

Information Requested under 573.6 (3)

Ferrara Fire Apparatus, Inc. has inspected all six axles in question. We found only one of them with the suspect wheel studs. We changed-out the twenty suspect wheel studs with Arvin Meritor supplied replacement wheel studs and returned the twenty suspect studs to Arvin Meritor as requested. (see attached)

Therefore, Ferrara Fire Apparatus, Inc. has zero potential units affected by this recall.

Sincerely,

A handwritten signature in cursive script that reads "John D. Wallace".

John D. Wallace
Director of Chassis Engineering
Ferrara Fire Apparatus, Inc.
