(57) **CLAIM**

The ornamental design for a combination tire temperature and pressure gauge, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a combination tire temperature and pressure gauge showing our new design, according to an embodiment of the invention;

FIG. 2 is a left side view of the combination tire temperature and pressure gauge of FIG. 1;

FIG. 3 is a right side view of the combination tire temperature and pressure gauge of FIG. 1;

FIG. 4 is a front view of the combination tire temperature and pressure gauge of FIG. 1;

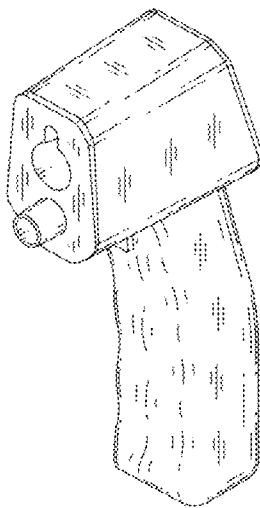

FIG. 5 is a rear view of the combination tire temperature and pressure gauge of FIG. 1;

FIG. 6 is a top view of the combination tire temperature and pressure gauge of FIG. 1; and,

FIG. 7 is a bottom view of the combination tire temperature and pressure gauge of FIG. 1.

The matter shown in dashed lines, including the tread depth measuring rod and slideable control, is environmental structure and forms no part of the claimed design.

1 Claim, 5 Drawing Sheets
