

Powersports Support Joins Volusion Partner Program to Provide Powersports Catalog Data to Online Retailers

Powersports Support offers powersports & motorcycle dealers catalog data from big distributors to help scale and sell more online.

Santa Ana, CA ([PRWEB](#)) January 13, 2016 -- Powersports Support, LLC today announced an eCatalog data plug-in with Volusion to solve the ongoing issue with Powersports data feeds. As part of the Volusion Partner Program, Powersports Support will be able to add the plug-in into any Volusion theme or template to enable over 600,000 powersports related sku's. Data is complete with: clean titles, descriptions, high resolution images, attributes (color/size), fitment (year/make/model), inventory feeds, and pricing feeds.

Powersports Support will bring a new level of integration, service and support for its clients selling with Volusion. Companies of all sizes use the Volusion platform to launch, promote, manage and scale successful online businesses. Clients selling with Volusion report selling 24 percent more in comparison to other platforms. By selecting a flexible, cost-effective SaaS solution, retailers are able to focus on managing their business, not the technology behind it.

“Powersports Support is a preferred Volusion Partner with expertise is delivering best in class catalog data services. Their elite team and offering enables our merchants to grow and sell more.” said The Volusion Team.
