

## **Stertil-Koni Names Joanna Poliziani CAD Drafter**

*In response to the robust demand for in-ground and platform vehicle lifting systems, which typically require detailed technical drawings to support custom installations, Stertil-Koni welcomes new CAD Drafter, Joanna Poliziani, to the company headquarters in Maryland.*

Stevensville, Maryland ([PRWEB](#)) February 02, 2016 -- Stertil-Koni, the leader in heavy duty vehicle lifts – notably bus lifts and truck lifts – has announced that Joanna Poliziani has joined the company as a CAD Drafter, providing further support to Stertil-Koni’s strong growth in the sale and installation of its fixed in-ground lifting systems.

In her new position, Poliziani brings 15 years of direct, hands-on experience in the construction industry – including estimating, quality control, surveying, layout, and jobsite administration.

In making today’s announcement, Matthias Lennemann, Sales Manager of Heavy Duty In-Ground Lifts at Stertil-Koni, noted, “Given the industry’s robust demand for Stertil-Koni’s powerful line of in-ground and platform lifting systems, and recognizing that these lifts typically require detailed technical drawings to support custom installations, it is absolutely essential to have a talented and skilled in-house CAD department. That is precisely why we are delighted to welcome Joanna to the Stertil-Koni team.”

Poliziani originally hails from Lebanon, Kentucky, received an AAS degree in Architecture from Anne Arundel Community College and lives in Arnold, Maryland, with her husband.

About Stertil-Koni USA, Inc.

Stertil-Koni, a brand of the Stertil Group, is the global market leader in heavy duty vehicle lifts – [bus lifts](#) and [truck lifts](#) – and is the preferred supplier to the world’s leading companies in the truck and bus industries.
