

RV Trader Launches Inventory Widget for Affiliate Websites

The Partner Inventory Tool is now available for use on manufacturer and consumer websites

NORFOLK, Virginia (<u>PRWEB</u>) May 10, 2016 -- <u>RV Trader</u> announced today the launch of an innovative widget that embeds the code from RV Trader's website in a participating partner's website. It gives RV publishers and manufacturers a competitive advantage by expanding their website's content to include RVs for sale across the country.

RV Trader partners who participate can customize the I-Frame to include their website colors, displaying inventory seamlessly as part of their site. The tool keeps users on affiliate sites longer since consumers can fluidly view photos and advertised prices of available RVs for sale nationwide.

"We're very excited to launch the Partner Inventory Tool for everyone interested in growing site traffic and increasing time spent on their site. Additionally, programs like the new affiliate widget allow more consumers to search for RVs than ever before," said Paige Bouma, vice president of RV Trader.

Those interested in participating can visit <u>RVTrader.com/research/partners</u> and submit a form for verification. If approved, an exclusive I-Frame code will be sent to the partner for inclusion on their website. For more information, visit RVTrader.com or call 877-872-3373.
