Nye County's Sheriff's Office Awards AVeL-TECH A Contract For Its Mobile Application, Automatic Vehicle Location and Message Switch

Nye County's Sheriff's Office awards AVeL-TECH a contract for its mobile application, automatic vehicle location and message switch. Last year, the Nye County Sheriff's Office deployed AVeL-CAD™, AVeL-TECH's Computer-Aided Dispatch system. Among various functionalities, it provided an interface to the Nevada LemsLink law enforcement message switch server in Carson City. This time, Nye County has selected MobiCAD™ (vehicular application), AVeL-NET BASE™ (automatic vehicle location) and RadioGATE™ (message switch).

With these additions, the Nye County Sheriff's office will extend CAD and NCIC to the field and benefit from AVeL-TECH's full product suite, thus optimizing the efficiency of their operations.

([PRWEB](#)) February 14, 2002 -- Nye County's Sheriff's Office awards AVeL-TECH a contract for its mobile application, automatic vehicle location and message switch.

Last year, the Nye County Sheriff's Office deployed AVeL-CAD™, AVeL-TECH's Computer-Aided Dispatch system. Among various functionalities, it provided an interface to the Nevada LemsLink law enforcement message switch server in Carson City. This time, Nye County has selected MobiCAD™ (vehicular application), AVeL-NET BASE™ (automatic vehicle location) and RadioGATE™ (message switch).

With these additions, the Nye County Sheriff's office will extend CAD and NCIC to the field and benefit from AVeL-TECH's full product suite, thus optimizing the efficiency of their operations.

Nye County is located in the south-central portion of the State of Nevada. It is the third largest county in the continental United States. With a land area of 11,560,960 acres, Nye County is larger than the total acreage of Massachusetts, Rhode Island, New Jersey, and Delaware.

AVeL-TECH Background Information

Based in Canada, AVeL-TECH designs and commercializes a complete suite of products for mission critical organizations, including computer aided dispatch (AVeL-CAD), automatic vehicle location (AVeL-NET), message switch (RadioGATE) and vehicular applications (MobiCAD).

AVeL-TECH's products have been designed to conform to the highest standards set forth by public safety organizations requiring uncompromized robustness to handle uninterrupted life-saving operations.

The AVeL-NET product line is modular and can be articulated around most operational requirements. AVeL-NET is available in English, Spanish, Portuguese and French and is currently used by several Police,

Ambulance, Fire departments and Governmental Agencies in North America, Latin America and Europe.

AVeL-NET, AVeL-CAD, RadioGATE and MobiCAD are trademarks of AVeL-TECH Incorporated.
