

FOR IMMEDIATE RELEASE

TNT Super Series returns to Lancaster Dragway this Friday Night

Dataclutch Data Acquisition presents RACE 5 in the 10 race season!

LANCASTER, NEW YORK (July 12, 2016) After a month off, the Joe's Transmission TNT Super Series will get back on track this Friday July 15 at Lancaster Dragway. The most popular sportsman series in the country will be part of the Nitro Night of Fire at the western New York facility.

Presented by Dataclutch Data Acquisition Recorders, this weekend's race marks the midpoint of the TNTSS season. Racer turnout is always strong, especially in the heat of the summer at Lancaster. "We have had some of our best car counts mid-summer at Lancaster's 1/8th mile," said Ted Barnes. "I wouldn't be surprised to see 35 or even 40 cars on Friday."

TNTSS championship points leader Jim Thomson will be looking to widen the gap while the rest of the field will be trying to reel him in. Thomson sits in first place with 336 points. He's got Dave Gunn only two rounds behind him at 315. Then Harry Phelps with 290, Billy Ryan at 287 and a tie with Bill Elekes and David Surmatchewski with 280 each make up the top five - All of them only separated by one round.

Racer gates open Friday at 3pm with the first of two qualifying sessions getting underway at 5pm. Visit www.lancasternationalspeedway.com for more information.

About the Joe's Transmission TNT Super Series (TNTSS):

Since it began in 2006, the TNT Super Series has grown into one of the strongest, most competitive sportsman drag racing series in North America and has catapulted many competitors to success on the national and divisional stages.

The TNTSS is a self-governing organization with input from its teams. Based on NHRA's Super Street & IHRA's Hot Rod classes, competitors run on a 10.90 index in the 1/4 mile (7.00 in the 1/8 mile) and race for a guaranteed purse that pays back more than 100% of the racer's entry fees. The yearend points fund provides cash & prizes to the top eight finishers and the Series Champion receives a prize package worth over \$4000.00.

The TNTSS is committed to providing the highest level of competition backed by solid media support to showcase its participants across North America. Events are contested at various drag racing facilities in southern Ontario and western New York and put on a spectacular show for the drag racing fan.

About Dataclutch

Since 2005 - Bob Gittere of West Falls, NY is the owner, designer, patent holder and manufacturer of Dataclutch® Data Acquisition Recorders. The Throttle Stop Tool!™ System developed specifically to measure and display the aspects relating to consistency and repeatability racing. Dataclutch also offers over 50 sensors and system configurations from Nitro Funny Car, Pro Mod, to TS and TD. Dataclutch is an NHRA certified system and is used by Mike Janis Racing. See Dataclutch.com or call 716-491-5315 or 716-675-1170 for sales and product details.

About Joe's Transmission

Joe Boniferro has owned and operated Joe's Transmission Service in Niagara Falls, Ontario since 1984. From the original single bay location, the business has progressed to a six bay, five employee automotive complex on Arthur Street. The two storey building houses Joe's Transmission (Commercial, Fleet and Performance Divisions) and Al's Radiator Service. They sell and install aftermarket high performance parts and accessories. As a Firestone

Dealer they sell and install drag racing tires. Their specialty is building and repairing high performance transmissions. Contact Joe and his team at (905) 374-6116 or visit them online at www.joestransmission.com .
