

## The Beast V8 Porsche Hot Rod Power Tour Sponsorship Opportunity

*West Coast Vintage.Com will be taking its Project car, a 500hp 1967 Porsche 911 hybrid on the Hot Rod Magazine Power tour. This national level event offers great exposure for sponsors of this unique high profile machine. See the website for details!*

([PRWEB](#)) February 6, 2003 -- This Porsche **IS** as fast as people **Think** Porsches are!

West Coast Vintage.com is sending our project car out on tour with the largest rolling show of horsepower in the world, the Hot Rod Magazine Power Tour! And we are looking for sponsors to share in the exposure.

The car is a 1967 Porsche 911 fitted with a 500 HP General Motors 6.3L V8 engine. This is a high profile car and its unique hybrid design draws crowds where ever it appears.

The 2003 show/cruise season will be the first showing of this car and we are working feverishly to complete all aspects of it. It is 85% finished, and all that remains are the details. This is where we have some excellent sponsorship opportunities available. Take a look at the website at [www.westcoastvintage.com](http://www.westcoastvintage.com) and imagine where your products could enhance our project. Send any proposals via e-mail to [porsche@westcoastvintage.com](mailto:porsche@westcoastvintage.com)

We will accept small parts, additives, etc. only in conjunction with show cost defrayment proposals. Larger parts / services can be stand alone sponsorships by providing parts / services only. If you have any questions, please don't hesitate to ask! We want to hear from you!

Sincerely

L.C. Mixon
