Maddocks Systems Releases TruckMate for Windows Version 6.0

Enterprise-Wide Software Featuring Functionality for Specialized Haulers or Diversified Transportation Companies

(PRWEB) April 12, 2003 -- Maddocks Systems Inc. the leader in transportation software solutions; has announced the release of TruckMate for Windows 6.0 (TM4Win) the newest version of the industryÂ□s top enterprise-wide software solution. An extensive number of new programs, industry specific enhancements, and increased functionality have been developed to establish TruckMate as the industryÂ□s most comprehensive transportation software package.

Â□We are excited to be releasing TruckMate for Windows 6.0 which is the product of nearly two years of dedication to researching the changing needs of the transportation industry and developing cutting edge solutions to these demands,Â□ said Bob Maddocks, President and CEO of Maddocks Systems Inc. Â□In addition to significantly expanding the overall scope of TruckMate we have also worked very closely with our clients to enhance the features of our current programs.Â□

Rosedale Transport of Mississauga, ON, one of the first Maddocks clients to install TruckMate for Windows 6.0 is currently running the software to handle their complex LTL transportation and distribution business. A Maddocks client since 1991 Rosedale Transport has had the experience of implementing every version of TruckMate.

Â□TruckMate is the center of the information systems that we rely on for our day-to-day operations;Â□ explained Ron Uloth Vice President and General Manager for The Rosedale Group. Â□TruckMate 6.0 brings an increased level of stability and functionality that will help us maintain the level of customer service our clients require as well as improve our operational efficiency.Â□

Maddocks Systems Inc. has been developing transportation solutions in the Windows environment for eight years. Having previously completed the core dispatching and operational functionality of TruckMate, Maddocks Systems is now in the enviable position of enhancing a mature product with features targeting specific trucking segments. TruckMate Version 6.0 has complete programs for handling Intermodal Transportation, specialized Tank Hauling, and trucking via the Internet.

Â□We see the transportation industry being defined by two distinct groups of companies; diversified carriers and specialized fleets,Â□ added Bob Maddocks Â□Diversified carriers want the flexibility of offering any range of transportation services while specialized carriers need a high level of functionality for one type of hauling. With TruckMate 6.0 the best of both worlds is possible; increased flexibility without sacrificing detailed specifications.Â□

Examples of TruckMate for Windows 6.0 Enhancements:
Â·   Mobile Auto Dispatching Capability
